PT-R Series adapters provide a fast, simple solution for terminating copper conductors where oversized cable is used to reduce voltage drop (e.g. 600 MCM cable to a 500 MCM pin). Available for sizes #1/0 AWG - 1000 MCM. Insulating covers are provided.
STEP-DOWN COPPER COMPRESSION ADAPTERS

• All-copper compression adapters
• For reliable termination of Class B copper conductor
• Use where oversized cable is used to reduce voltage drop on long runs
• Use where neutrals are upsized for power quality
• Narrow profile often allows use in place of offset adapters on multi-wire terminals
• Fits into mechanical set-screw type connectors
• Amperage rating is per the pin size
• Fabricated of wrought copper with pin of Class B stranded copper conductor
• Insulating covers are provided

For size combinations not shown, consult factory.
For solid pin, consult factory.
Custom pin lengths available. Consult factory.
For tin plating add the suffix “P” to catalog number.
For aluminum cable, use PT Series

* Installation tool: Greenlee HKL 1232
** Add 1/8” for insulating cover
