

COMPRESSION

REDUCING ADAPTERS

Use to reduce barrel size for smaller wire in lug or splice

Versatile adapters fit into copper compression splice or lug to reduce barrel size

Install with compression die appropriate for barrel size

High conductivity copper, tin-plated

Some sizes are corrugated, some smooth with open seam

Copper wire only

COMPRESSION

COMPRESSION REDUCER KITS - COPPER

Splice two sizes of Class B copper cable; installer to supply all cable

Join a new system to an existing system where oversized cable is used to reduce voltage drop on long runs

Reduce an oversized wire to fit a lug supplied on the equipment

CRK kit includes CRA adapter(s) to reduce the barrel to fit the cable sizes.

Each kit contains: Long barrel compression splice (C Series)

Adapter(s) for reduction/tip end (CRA Series)

Adapter(s) for cable/run end, if needed (CRA Series)

All components are high conductivity copper, tin-plated

Can be insulated with high heat-shrink tubing

CRK kits are designed for copper cable only. To splice an aluminum cable to a smaller copper cable, consult the factory for an ACK-R Kit (ASC-T splice with CRA insert), or use a AC-R Aluminum Reducing Splice or PT Bi-Metallic Adapter.

Copper wire only

*May be used for applications up to 35 KV when proper installation and insulation procedures are employed.
 Manufactured to order in 3-4 days. *Minimum order 3 pieces of same size.

For tin plating add suffix "P" to Catalog No; adds approx. 1 week production time. Consult factory for combinations not listed.
